

What is Performance Track?

The National Environmental Performance Track is designed to recognize and encourage top environmental performers – those facilities that go beyond compliance with regulatory requirements to attain levels of environmental performance and management that benefit people, communities and the environment while saving money and improving their bottom line productivity.

Performance Track is intended for top performing facilities of all types, sizes, and complexity – public or private, manufacturing or service oriented. For more information, visit the Performance Track web site at: www.epa.gov/performance-track

Workshop Goals...

- ★ **Acquaint** interested organizations and facilities with the National Environmental Performance Track program and address your questions about participation, entry criteria, benefits of participating, and the application process.
- ★ **Highlight** regional Performance Track member facilities who have been successful in using new technologies and innovation to achieve environmental goals.
- ★ **Hear** from current Performance Track members about their experience with the program and working with EPA.
- ★ **Learn** how you can help shape the direction and future success of this innovative environmental program.

Recycled/Recyclable
Printed with Vegetable Oil Based Inks on Recycled Paper
Minimum 50% Postconsumer Process Chlorine Free

United States
Environmental Protection
Agency 1808
Washington, DC 20460

Official Business
Penalty for Private Use
\$300

 Is your facility
leading the
way towards
environmental
excellence?

Then you're ready for Performance Track!

If your facility has an environmental management system plus a commitment to ongoing environmental improvement and public outreach, your facility may be eligible for Performance Track.

Please join us for a half-day workshop, sponsored by Motorola to learn more about this important program.

Hold the date!

March 14, 2002

9:30am – Noon

Motorola Campus

1301 East Algonquin Road

Gate A, Door 4
